VA Greater Los Angeles Healthcare System

COVID-19 (Coronavirus) Entrance Screening

To Veterans and Visitors:

Effective immediately, VA Greater Los Angeles Healthcare System is putting in place new procedures to reduce the risk of COVID-19 (coronavirus) transmission.

FIRST, at our main hospital building (Building 500 on the West LA campus), we are limiting entrance to two locations: the **main entrance (north side)** and the **east entrance (Emergency Department)**.

SECOND, at each of these locations, and at entrances to some of our other buildings, all **visitors will be asked a few questions to screen for possible COVID-19 infection.**

We apologize for any inconvenience that these changes will cause. We are taking these measures with the goal of keeping our Veterans, staff, and visitors safe.

Thank you.
